

- Notes:**
- Operations are fully described in Section 4 of the Flood Protection Scheme Operations document.
  - Supplementary Information is included in the Environmental Statement, Planning Statement and Preferred Scheme Report which accompany these drawings.
  - These plans are provided in accordance with the requirements of the Flood Risk Management (Scotland) Act 2009 Section 60 and Schedule 2.
  - Replanting at a rate of two trees for each tree felled (with DBH greater than 100mm) included where described in the Schedule of Operations.
  - All outfalls and pipes which discharge to the watercourses shall require to be surveyed in advance of construction. Where a flood risk exists as a result of backing up of flood waters through these outfalls and pipes, flap valves and outfall structures shall be fitted to those outfalls and pipes.
